

# Y•TEX® All-American®

## Two-Piece Ear Tagging System

- Fast, simple application
- Excellent visibility and retention
- Four year hot stamp and ink warranty
- Custom imprinting

**ALL-AMERICAN® EAR TAG**

Neck designed to allow tag to hang below ear hair – better visibility

Ribbed neck – prevents breakage

Ultraviolet light inhibitors – resists fading

Specifically formulated for superior laser, hot stamped or inked number and code life

Patented Snap-Lok™ collar for superior retention

Softer, more flexible polyurethane formulation

Sloped shoulder – resists snagging

Tag edges with radius design – prevents flex cracking

Proper button shaft length for rapid healing

Flexible button shaft and head resists snagging

Single-use button tip – helps prevent infection transfer

**Tag Removal Knife**  
Removes ear tags quickly and safely

Wide open throat never pinches the livestock's ear

Straight-line application

Super-strong nickel plated applicator pin won't bend or break

Constructed of reinforced, high-tech engineered thermoplastics and close precision metal parts for outstanding durability and corrosion resistance

## Y-TEX UltraTagger® plus

The most advanced hand application available for two-piece tags. Features space age technology and materials. Ultra durable! Ultra light! Ultra fast!

## Y-TEX PowerTagger™

Attaches a two-piece tag in a split second—safely and easily. Powered by compressed air, this precision tagging tool provides for high volume tagging while reducing operator fatigue.

Y-TEX Ball Tip Marker

Y-TEX Tag Ink Marker

Y-TEX Tag Ink stays legible for 4 years

## Y-TEX Ear Tag Markers

The Y-TEX Tag Ink marker is available with black ink and interchangeable broad and fine tips. Y-TEX ball-tip markers come with either black or white ink. Y-TEX Tags marked with the new Y-TEX Tag Ink are **guaranteed legible for four years** when properly applied.

## Y-TEX Ear Tag Imprinting

Y-TEX custom imprints identification ear tags fast and at low cost. Choose from special numbers or letters, your brand, herd prefix, name, phone number or special logo. Tags are hot stamped with foil dye and are **guaranteed legible for four years**.

## Y-TEX Laser Imprinting

Y-TEX RFID Tag and companion 3-Star

Y-TEX tags are imprinted with a powerful computer driven laser beam. Imprints last the life of the ear tag. Imprints can be complex images, photos or logos (even different information on both sides of the tag).
