

## product information

### DESCRIPTION:

WARRIOR is a unique 40% organophosphate ear tag which releases a synergized formulation of diazinon and chlorpyrifos from an exclusive Tri-Polymer matrix of non-toxic inert ingredients. WARRIOR combines the high fly killing action of diazinon with the superior lice and tick control properties of chlorpyrifos. This patented\* formulation exhibits greater potency than either insecticide used alone and is especially effective against pyrethroid-resistant pests. WARRIOR has a net weight of 15 grams per tag for long-lasting activity.

### EFFECTIVENESS:

Controls horn flies (including pyrethroid-resistant populations), biting lice, sucking lice, Gulf Coast ticks, spinose ear ticks, and aids in control of face flies, stable flies and house flies.

### PACKAGING:

WARRIOR is available in packages of 20 tags and in Ranch Packs of 100 tags (5 pouches of 20 tags each). Each tag includes a male button for attachment.

### PRODUCT ADVANTAGES:

1. Approved for use on beef cattle and non-lactating dairy cattle.
2. Controls economically significant parasites with a concentrated formulation, reducing total pesticide costs.
3. Controls horn flies and aids in control of face flies for 3 to 4 months with one tag per head and up to 5 months with two tags per head when used in an insecticide rotation program.
4. Controls lice, Gulf Coast and spinose ear ticks up to 5 months and aids in control of stable flies and house flies with two tags per head.
5. Controls biting lice and sucking lice for up to 3 months in winter with one tag per head.
6. Requires no withdrawal time.
7. Has Y-TEX registered Snap-Lok® collar for guaranteed retention against tag or button failure for 5 months.
8. Uses the proven Y-TEX two-piece application system.
9. Ideal for rotation with XP 820™, PYthon® or other pyrethroid tags to help manage horn fly resistance to insecticides.

# Y•TEX® WARRIOR™ Insecticide Cattle Ear Tag

### ACTIVE INGREDIENTS:

### BY WEIGHT

#### Diazinon

0,0-diethyl-0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate. . . . . 30%

#### Chlorpyrifos

0,0-diethyl 0-(3,5,6-trichloro-2-pyridinyl) phosphorothioate. . . . . 10%

INERT INGREDIENTS. . . . . 60%

TOTAL. . . . . 100%

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application.

**Summer Season:** Apply 1 tag per animal to control horn flies for 3-4 months, control lice and aid in control of face flies. Apply 2 tags per animal (1 in each ear) for optimum control of horn flies, lice, Gulf Coast ticks and spinose ear ticks for up to 5 months. Two tags per animal also provides substantial reductions of face flies and aids in control of stable flies and house flies. Apply when pests appear.

**Winter Season:** Apply 1 new tag per animal in late fall to early winter to control biting and sucking lice. Kills biting lice and most sucking lice within 2 weeks. Protects from lice reinfestation for 2-3 months. Apply new tags in spring for fly and tick control. Replace as necessary. Apply as shown with the Y-TEX 2-piece tagging system. All animals in the herd should be tagged. Calves less than 3 months of age should not

### STEP 1

Seat male button firmly on pin, press down and give a slight twist.

### STEP 2

Place female tag firmly under clip. Collar on tag must be pointing away from pin.

### STEP 3

Position applicator over ear and squeeze handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

be tagged or ear damage may result. To minimize development of insecticide resistance, remove used tags at end of fly and lice seasons and follow Y-TEX's recommended tag rotation program.

## STORAGE AND DISPOSAL

Store in a cool place in original container. Opened bags containing ear tags should be resealed for storage. Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in cool place away from direct sunlight.

**PESTICIDE DISPOSAL:** Remove tags before slaughter. Securely wrap used tags in a plastic bag or several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Do not reuse bag. Discard bag in trash.

## KEEP OUT OF REACH OF CHILDREN

## PRECAUTIONARY STATEMENTS

## HAZARDS TO HUMANS

### WARNING

Harmful if absorbed through the skin or if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling and before eating or smoking. Avoid contamination of feed or foodstuffs. If rubbed in eyes, flush with plenty of water. If swallowed or if eye irritation persists, call a physician. Wear rubber, or non-permeable protective gloves when applying tags. Prolonged or frequently repeated skin contact may cause allergic reaction to some individuals. If sensitization reaction results, consult with a physician.

## ENVIRONMENTAL HAZARDS THIS PESTICIDE IS TOXIC TO FISH.

Do not apply directly to water. Do not contaminate water by disposal of used tags. Use this product only as specified on the label.

## NOTICE OF WARRANTY

Y-TEX CORPORATION MAKES NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PURPOSE, OR OTHERWISE, EXPRESSED OR IMPLIED concerning this product or its uses which extend beyond the use of the product under normal conditions in accord with the statements made on this label, and in any case, is limited to replacement of tags only.

### FIRST AID

This product contains diazinon and chlorpyrifos, organophosphate insecticides that inhibit cholinesterase.

If on skin or clothing

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in eyes

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If inhaled

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.
- Call a poison control center or doctor for treatment advice.

If swallowed

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

### HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-255-3924 for emergency medical treatment information.

### NOTE TO PHYSICIAN

Diazinon and chlorpyrifos are organophosphate insecticides. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.
